NEW COLLECTION AND
BESTSELLERS OF THIS BRAND

ABOUT US

Belleza's Team History:

Our journey began in late 2016, drawing inspiration from existing market trends to create decorative and ornamental items, utilizing alloy materials from metals and steel.

In 2020, with our progress and a growing reception, we decided to design a new style by blending Iranian taste. hence, we added the bowl and small dish of Iranian culture to our consumer items, quickly gaining global market entry.

At the beginning of 2023, we presented our creations on an international stage by participating in an exhibition in Turkey. It is worth noting that every step of our production process—from casting to final packaging—is the result of art, dedication, and meticulous craftsmanship.

Today, our products are crafted from pure natural brass, often combined with high-quality stainless steel and accents of beechwood, adding both elegance and value to our collections.

Due to their handmade nature, each item is inherently unique. Nevertheless, we are deeply committed to delivering consistently high-quality pieces with minimal variation.
